Exercise 03 &04

Dear Panasa Teja,

As per your request, (once again) we had scrutiny of the answer scripts and viva session videos. Finally, we conclude that there is no revision in the mark.

The mark details are, Submission (2.5 Marks)	Evaluation (5 Marks)	Evaluation -II (Viva-2.5 Marks)	Total Marks (10 Marks)
2	2	2	6

Clarification from Evaluators:

For submission 2 marks out of 2.5

For Viva 2 marks out of 2.5

For evaluation -1 answer sheet - total 2 marks out of 5

Question 1 - 0.5 marks

Question 2 - 0.5 marks

Question 3 - 0 marks

comment - In the answer grouping **must be done based on the login_id of the user** it can't be based on the operation field. If grouping is based on the operation field it is wrong. From his answer it will group the tuples based on operation field, then it can count how many times that specific operation has been performed. so the answer is wrong and we put zero marks there.

Question 4 - 0 marks

comment - the question was about the interpretation of the SQL query. He just filled few words in the queries and converted them into a paragraph.

The expected answer was "**Query to collect the user id for which the manager declined the 'delete' file operation**".

If you are not satisfied with above said explanation (for further clarification) Please Call (Dr. Prabu Mohandas, 9994058168)
